PRIVATE SCHOOL REPORTING INSTRUCTIONS

PURPOSE

The Georgia Code on *requirements for private program*, (O.C.G.A 20-2-690) provides, within 30 days after the beginning of each school year, it shall be the duty of the administrator of each private school to provide to the school superintendent of each local public school district which has residents enrolled in the private school a list of the name, age, and residence of each resident so enrolled. At the end of each school month, it shall be the duty of the administrator of each private school to notify the school superintendent of each local public school district of the name, age, and residence of each student residing in the public school district who enrolls or terminates enrollment at the private school during the immediately preceding school month. Such records shall indicate when attendance has been suspended and the grounds for such suspension.

Data Collected by the DE1111 in November will be used to cross-reference K-12 enrollment information provided by private schools participating in Equitable Services Under Title II, Part A and Title IV, Part A of ESSA. By law ESSA allocations are determined on a per pupil basis and, in Georgia, are extracted from an official count taken the first Tuesday of October. DE1111 enrollment information submitted in November should reflect enrollment information collected on the first Tuesday of October.

The Private School application has been designed specifically for this purpose. Link to Georgia Code [click here](#). You must agree to the terms, then you will be able to search for 20-2-690.

NOTE: Report the number of students that reside in your district/city school system in the grade and private school the students attend. (Do not just report the students attending a private school located in your geographic district/city system.)

Private School Data Collection Documentation

Documentation for the Private School Data Collection can be found on the GaDOE Data Collections website: <https://www.gadoe.org/Technology-Services/Data-Collections/Pages/Private-School-Resources.aspx> (Figure 1.)

Figure 1. Gadoe.org

The screenshot shows the GaDOE website's 'Private School Resources' page. At the top, there is a navigation bar with categories like 'Offices & Divisions', 'Programs & Initiatives', 'Data & Reporting', 'Learning & Curriculum', 'State Board & Policy', 'Finance & Operations', and 'Contact'. Below this is a breadcrumb trail: 'Home → Technology Services → Data Collections → Private School Resources'. The page has a sidebar on the left with 'Data Collections Documentation' highlighted. The main content area is titled 'Private School Resources' and contains the following text: 'Each district superintendent is required to report the total number of students who are living within their county but attending a private school.' Below this, there is a section for 'Private School Data Collection Resources' with a bulleted list: 'Private School DE Form 1111', 'Private School DE Form 1111 (Editable)', 'Private School Instructions', 'List of Private Schools', and 'Private School Data Coordinators'. To the right, there is a 'Contact Information' section for Nicholas L. Handville, Chief Data and Privacy Officer, with his email (nhandville@doe.k12.ga.us) and website (https://www.gadoe.org). At the bottom of the contact section, it lists the 'Technology Management Customer Support Center (Helpdesk)' at the Georgia Department of Education, with a phone number: (800) 869-1011.

The Private School Data Collection occurs in two phases. Phase 1 is the school review period and Phase 2 are the data collection period.

PHASE 1 – Getting Good Contact Information for the Private Schools Located in Your District

Private School Review Period

The Private School Data Collection in November will be preceded by a school contacts and information review period. Each county/city school system is asked to notify GaDOE, by using the “Edit Private School Contact Data for x County” hyperlink on the Private School Main Menu (see [Figure 2](#) below), if any corrections need to be made to the Private School information. These corrections need to be made before the November data collection begins. County and city school systems are asked to send any address corrections, county (in which the private school is located) corrections, as well as any school additions or closings in September so the Private School List will be accurate when the data collection opens in November. If the Private School is assigned to your county/city you can make changes immediately through the “Edit Private School Contact Data for X County” hyperlink on the Private School Main Menu (see [Figure 2](#)).

Figure 2. Private School Main Menu

How to Get a Copy of the Private School List

Those without a GaDOE Portal account can view the List of Private Schools in Georgia by going to the following link, [List of Private Schools in Georgia](#), ([Figure 3](#)). This list is updated immediately when changes are made by the district/Private School administrator.

Those with a portal account can view the list of Private Schools in Georgia by logging into the GaDOE Portal, then from the Data Collection fly out menu, click on Private School. Click on the current year Private School Data Collection on the Transmission Period screen ([Figure 4](#)) then select “Contact Info for Private Schools” on the Private School Main Menu ([Figure 2](#)). This list can be copied and pasted into an Excel spreadsheet and then sorted by School Name, City, State, Zip, or County. For example, the (partial) list in ([Figure 3](#)) below was sorted on the Private School County Location. Once the information is copied to Excel, the list can be printed for reference when creating a mailing list to request information on the number of public-school students enrolled in the private school.

Deleting Data Entered by Mistake

If data is entered for a private school in error, you can delete the entire school entry. This deletes the school from your report. It does not delete the private school from the Private School List. If any data entered is incorrect, click the ‘Delete’ hyperlink in front of the school’s name to be deleted ([Figure 15](#)).

You will get a message ([Figure 16](#)) asking if you are sure you want to delete the private school from your list of schools. Click ‘OK’ if you are sure or ‘Cancel’ if you want to go back to the previous screen. If you don’t get the following pop-up dialog box, you will need to allow pop-ups from all doe.k12.ga.us web addresses. In Internet Explorer, this means you must add the web address to your compatibility view allowed sites (from the IE **Tools** menu, select Compatibility View settings, then add doe.k12.ga.us to the compatible sites). If you have trouble with this functionality, contact the DOE Helpdesk.

Figure 16.

Once you click 'OK' the Private School will be removed from your list of reported schools.

If you need to enter data for additional schools click on the hyperlink "List of Private Schools". Otherwise, click on Private School Main Menu to return to the Private School Main Menu.
